

3D Modeling

AREA	None	Some	Most	Mastery
Presentation Did the student(s) demonstrate a solid understanding of the software for project development?	No understanding of the software for project development.	Some understanding of the basic use of the software for project development.	Competence in the use of software for project development.	Mastery in the use of software for project development.
Documentation Did the student document non-student produced materials?	No required permissions present.	Some required permissions included, but not all.	Most required permissions included.	ALL required permissions present OR no permissions needed.
Software Usage Was the software suitable for the project?	Software used was not appropriate for the project.	Some of the software used was appropriate for the project.	Software used was appropriate and enhanced the project.	Mastery in the choice and use of software to enhance the project.
Project Design Do all elements of the project work together?	Colors, textures and shapes do not work well together.	Some attempt has been made to coordinate colors, textures and shapes.	Colors, textures and shapes have been carefully chosen to lend realism to the project	Mastery in the choice of colors, textures and shapes to create realistic images.
Background Design How well does the project use lighting and shadow techniques?	No lighting or shadows are present in the project.	Some attempt has been made to use lighting and shadow techniques to highlight the project.	Student expanded the use of lighting and shadow techniques in their project.	Mastery in the use of lighting and shadow techniques in the project.
